

SteriTech Laundry Solution

Concentrated Laundry Disinfectant

SANS 636
Permit number
7333/10881

Available sizes:
1L; 5L
Dilution Factor:
20mL/5Kg

Reg. No. ACT56NR529/242613/040/0273

Broad Spectrum:

Disinfects washing against pathogens which traditional products can't kill.

Concentrated:

Economical to use in large quantities.

Easy:

Application as simple as adding the product to the rinse cycle of a washing machine.

Residual Action:

Continues to disinfect even after the washing has dried, giving long-lasting protection, and ultimate peace of mind. Also prevents cross-contamination thus limiting the spread of infections.

Deodorising Properties:

Removes malodours from washing.

Economical:

Fabric Softening action means one product does 2 jobs.

Antimicrobial Efficacy:

SteriTech Concentrate has been tested effective against the following organisms by the SABS, hospitals, government approved & internationally accredited laboratories in South Africa, UK and the USA:

Bactericidal: *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Escherichia coli* & Coliforms, *Chlamydia trachomatis*, *Salmonella typhi & choleraesuis*, *Enterobacter cloacae*, *Actinomyces naeslundii*, *Ureaplasma urealyticum*, *Streptococcus faecalis & mutans*, *Lactobacillus leichmanni & paracasei*, *Enterococcus hirae*, *Mycobacterium bovis & tuberculosis*, *Bacillus subtilis & cereus* and MRSA. **Virucidal:** Cytomegalovirus, HIV, Polio, Herpes, Influenza, Hepatitis, Rotavirus, Foot & Mouth Disease, Avian Influenza, SARS, Coronavirus, Norovirus, Parvo and Calicivirus. **Fungicidal** (including fungal spores): *Trichophyton mentagrophytes*, *Candida albicans* and *Aspergillus flavus & niger*.

Microbicidal: *Dermatophagoides pteronyssinus*

Active Ingredient:

SteriTech Laundry Solution contains SteriTech Concentrate (a Quaternary Ammonium Compound/TriButyl Tin Oxide Blend) at a level of 5%.

First Aid:

In case of eye contact:
Flush eyes thoroughly with water. Redness might occur, but should disappear within 30 minutes. Should it persist, consult your physician.

In case of ingestion:
Do not induce vomiting, simply drink a large glass of milk and consult your physician.

Instructions for Use:

AUTOMATICS:
Use 20mL/5Kg of washing in rinse cycle (add to compartment for softeners or dedicated final rinse compartment).

TWIN TUBS:
Mix 20mL/5Kg of washing with water and add to final rinse.

HAND WASH:
Add a capful into the water of the final rinse, agitate and add to your washing.

Recommended Uses:

- Highly recommended for:
Bed linen and towelling of babies, toddlers and invalids, especially where infectious diseases are present, and to eliminate house dust mites which cause allergies.
- Also useful for pets blankets and bedding.
- Also useful in controlling the occurrence of mildew on towels & or clothing in humid climates.

PPE Requirements:

Respiratory Protection: None
Ventilation: None
Eye Protection: None
Protective Gloves: None
Other Protective Clothing: None

Product Description:

Physical form: Clear Green Liquid
pH: 5.5
Rinsability: excellent
Odour: Waterfleur
Incompatibility: anionic detergents
natural soaps, strong oxidisers
Stability: Stable
